# 算法与算法复杂性理论

第一次编程作业

#### 题目描述(Vertex Cover)

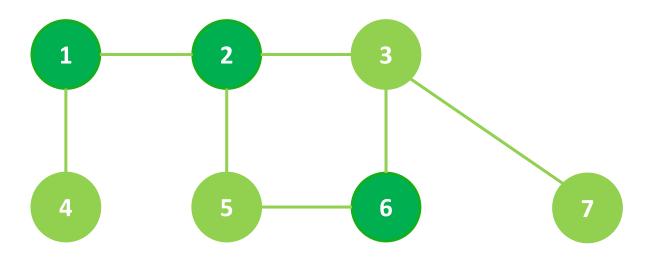

- 给定一个N个点M条边(N≤100, M≤5000)的无向图G
- 问是否存在一个不超过 $k(k \le 20)$ 个点的点集S,使得G中每条边都至少有一个点被覆盖

Are the dark green vertices a vertex-cover?

No. why?

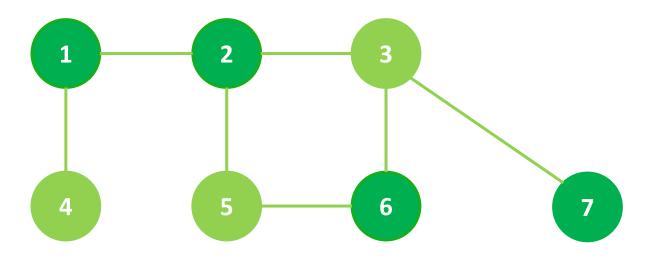

Edges (5, 6), (3, 6) and (3, 7) are not covered by it

Are the dark green vertices a vertex-cover?

No. why?

Edge (3, 7) is not covered by it

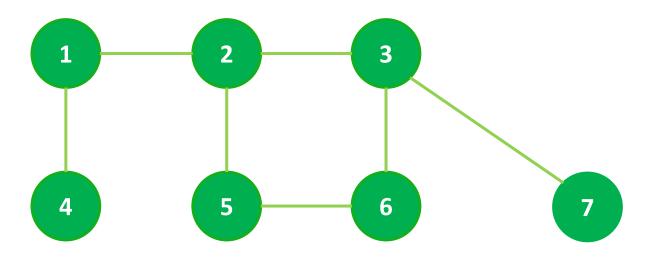

Are the dark green vertices a vertex-cover?

Yes?

What is the size?

4

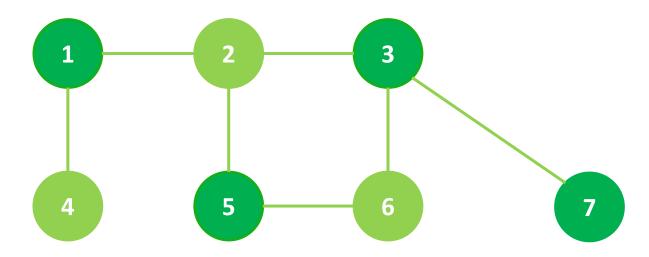

Are the dark green vertices a vertex-cover?

Yes?

What is the size?

7

Are the dark green vertices a vertex-cover?

Yes?

What is the size?

3
